

Easy Starting Guide for DVD copy of DVDR-2008

1. Connect VDR video/audio output to your TV monitor's video/audio input, you will see VDR on-screen logo display on TV monitor when you turn on the DVDR player.
2. Put one blank CDR or CDRW disc in VDR drive, 'Preparing CD' will display on TV. After a while, you can choose record format among 'VCD, SVCD and Audio CD', press Enter button (VDR section*) on remote to confirm.
3. Insert one DVD movie disc into DVD drive, you will see the movie is shown on TV. Then you can press Record button (VDR section*) on remote to start recording anytime.
4. Press OSD button (VDR section*) on remote to see recording status on TV monitor or press SW button (VDR section*) on remote to see VDR status on LCD display of the player.

* There are two sections on remote control as shown on the following picture:
